

The UConn Chapter of Phi Delta Kappa presents:

## An Evening of iPad Apps

Wednesday, November 13, 2013

@ Tolland Middle School

5:00 Light Dinner & Networking

5:30-7:00 Breakout Sessions

*featuring:*

**Enhance Your Science Teaching Through the Incorporation of iPads**

**Grades 6-12**

*National Speaker:* Marge Porter

Expand and energize your existing repertoire with helpful techniques for incorporating a variety of iPad features and applications into your current science program. In this workshop you will learn practical strategies for integrating technology into existing science lessons by strengthening collaboration, inquiry, and communication skills among your students. You'll discover ways to implement iPads that will empower and inspire students to learn relevant science concepts. You will also receive a resource booklet that includes a collection of useful and valuable ideas to encourage science inquiry, as well as detailed guidelines for incorporating new apps into your curriculum.

**World Language and the iPad**

**Grades 6-12**

Carlos Metzger

Explore a variety of iPad apps that will enhance teaching and learning in a World Language classroom. Learn about apps that improve work flow and assist in setting up a paperless/hybrid classroom.

**iPads in the Elementary Classroom**

Lisa Reilly

Elementary educators will learn about ways to engage and empower students with "Flipped" lessons across the disciplines. Participants will also explore Apps such as Showbie which can be used as a digital portfolio with seamless communication between teachers and students. The possibilities are endless in the iPad classroom.

**iPads in the Social Studies Classroom**

**Grades 6-12**

*National Speaker:* Mike Szafir

Have iPads? Getting iPads? Confused a bit about how to actually use iPads? This presentation will explore basic apps and how to use them in social studies content. The presentation will be hands on so please bring your own iOS device!

**iPads in the Secondary Classroom Grades**

**Grades 6-12**

Tammany Reynolds

Discover ways to incorporate the iPad into your teaching. Learn about a plethora of APPs to use in the classroom. Bring your own iPad and try some out on your own.

**Get Things Done on Your iPad**

Jamison Judd

Have an iPad and want to learn how to better organize your professional or personal life? We'll cover some apps to help you get a handle on the overwhelming deluge of digital information.

**Wednesday, November 13, 2013**

**5:00-7:00 p.m.**
